EDUCATION

St Puis X College Rajapuram, Bachelor of Computer Science, Specialization in python (Aug 2021– 2024)

Cumulative GPA: 6/10

Holy Family Higher Secondary Kerala, Kerala State Board Examination, class 12th (Jun 2020 - Jun 2021)

Cumulative GPA: 8.5/10

Holy Family High School Kerala, Kerala State Board Examination, class 10th (Jun 2018 - Jun 2019) Cumulative

GPA: 9.3/10

WORK EXPERIENCE

Riss technologies(september - december 2024)

- Here, I was able to participate in a leadership community by completing the following Python projects:
pharmacy management using Python. Gained in depth knowledge in Python fullstack and javascript.

ACADEMIC PROJECTS

Belling and Announcement management System :

- This project aims to develop an automated system to manage bell ringing and announcements at scheduled times. The system will allow users to set up customizable schedules for ringing bells or making audio announcements throughout the day.

-python , Django

Pharmacy Management System :

- Pharmacy management system will ensure efficient management of medicine stocks, track expiration dates, and facilitate prescription fulfillment

-python , Django

Driver Management System :

The Driver Management System is designed to manage the operations of drivers within a company, such as a logistics, transportation, or delivery service. It helps in pre-booking driver to passengers.

AREA OF INTEREST

- Python Developer
- Web Developer

- Data Analysis
- Machine Learning

TECHICAL SKILLS

- Python
- Django
- Android Studio
- MySQL
- Javascript
- HTML & CSS
- C/C++
- Java
- Bootstrap
